About Me

"Let your design and leadership influence the world around you in a positive way."

As a Full Stack Developer that has a degree in Graphic Design, I work to help evolve online education and help develop a more fluid user friendly internet.

Projects

Bite Sized Voters

Hackathon Project around increasing voting turn out. Built with React, Node.js, Express, NodeMailer, with responsive design.

Experience

2018 - 2018 **Instructor Aid**
General Assembly
Instructional Aid for Web Development Immersive. Responsibilities involve refining lesson plans, teaching, and being a support structure for both the instructor and the students.

2018 - 2018 **Web Development Student**
General Assembly
A 12 week immersive program that teaches the full-stack web development. The program is taught by top web developers and is designed to provide students with real world experience through a variety of full-stack technologies.

2011 - 2018 **Freelance Graphic Artist**
As a freelance graphic artist I worked with several types of customers and companies to create a broad spectrum of graphics. I worked on teams and production deadlines to ensure my customers needs were met on time and to their specifications.

2014 - 2018 **Retail Store Manager**
T-mobile
As a Store manager for a retail sales location I gained several valuable skills. I was in charge of coordinating goals, scheduling and driving team engagement. Within my time with the company I earned several promotions and awards for creating tools to streamline scheduling, goal allocation and driving competition within the company. I also was an associate trainer for a time.

Education

2018 - 2018 **Full Stack Development**
Genreral Assembly

2015 - 2017 **Bachelor of Applied Science (B.A.Sc.) Media Communication**
Full Sail University

2011 - 2016 **Bachelor of Arts (B.A.) Graphic Design**
Academy of Art University
